

Risk Management Services for Outdoor Property

Green Industry Experts Helping to Protect Your Business

Hazard Assessment | Disaster Preparedness | Property Insurance Evaluation
Loss Prevention | Training | Claims Management

The HMI Advantage

HMI supports organizations of all types to limit exposure to outdoor property losses before they happen. We are the nation's leading experts for risk management solutions pertaining specifically to outdoor property. Rely on HMI to develop protocols to minimize losses and deliver solutions to mitigate financial impacts if they do occur.

What is Outdoor Property?

Outdoor property includes: trees, landscaping, turf, hardscapes, irrigation, golf courses, playing fields, water features, nurseries, vineyards, orchards, and more. Damage to these assets from weather and other disasters may produce significant losses. HMI advises its clients on how to identify, manage, and mitigate the risk to your outdoor property.

Loss Prevention

Providing owners and managers with a clear understanding of risks to their properties from catastrophes as well as cost contingency budgeting.

Claims Management

Establishing an accurate scope of damage, as well as restoration and replacement cost calculations, utilizing the green industry's top experts.

Storm Response

Facilitating a proactive response for weather events, thanks to our unique First Responder Program and claims management expertise.
